PROFESSIONAL SUMMARY

First-class Petroleum Engineering student with a solid academic foundation and a passion for innovative solutions in the oil and gas industry. An aspiring energy professional dedicated to continuous growth in the energy sector. Passionate about leveraging analytical and computational tools to improve efficiency in modern energy systems. Eager to apply technical knowledge, analytical skills, and problem-solving abilities in a dynamic learning environment.

EDUCATION

BSc. Petroleum Engineering (First Class honours) | Expected November 2026

University of Mines and Technology (UMaT), Tarkwa, Ghana

- **Key courses:** Reservoir Engineering, Drilling Engineering, Production Engineering, Well Logging, Well Testing, Enhanced Oil Recovery, Computer Applications in Petroleum Engineering, Natural Gas Engineering
- **Cumulative Weighted Average (CWA): 87.87% (GPA Equivalent: 3.96/4.0)**

WORK EXPERIENCE

Quality Assurance Intern, GOIL PLC | October 2025

- Conducted quality control tests on Automotive Gas Oil (AGO) to ensure compliance with standards;
- Assisted in bunkering operations at Sekondi Naval Base to transfer diesel to Naval vessels;
- Observed and learned about refilling of helicopters with Aviation Turbine Kerosene; and
- Gained practical understanding of jet fuel storage, purification, and distribution systems.

Intern, PetroSkill Virtual Internship | September 2025

- Obtained knowledge on fluid flow and well performance, bit selection and drilling fluid design, reservoir drive mechanisms, material balance and general oil rig operations.

Student Researcher, Ghana National Gas Company | September 2024 – November 2024

- Researched the flaring of Isopentane at the Atuabo Gas Processing Plant and proposed a commercially viable strategy for its capture and utilisation as part of the *2024 Gas Challenge*.

PROJECTS / RESEARCH EXPERIENCE

Machine – Learning Based Prediction and Optimisation of Drilling Rate of Penetration (ROP)

- Developed and trained models using Python and Machine Learning algorithms to predict and optimise drilling ROP from drilling parameters;
- Performed data preprocessing, feature selection, and model evaluation to improve prediction accuracy;
- Analysed the influence of parameters such as WOB, RPM, pump pressure, and torque on drilling performance; and
- Deployed the Random Forests model as a web-based application decision support tool for drilling optimisation.

Gas Pipeline Design and Construction, The Gas Challenge, Ghana National Gas Company

- Researched and prepared a project report and delivered a technical presentation on gas pipeline construction, contributing to informed discussions at *The Gas Challenge, 2024*.

CERTIFICATIONS AND TRAININGS

- Industrial and Occupational Health and Safety (Pulse Global Nexus, 2025)
- Fire Safety and Basic Fire Fighting (Ghana National Fire Service, 2025)
- IWFC Level 1 (International Well Control Forum, 2025)
- Technical Training on MDT and Excess Pressure Plot Analysis (PetroSkill Virtual Learning, 2025)
- SPE Membership (Society of Petroleum Engineers, 2023)

LEADERSHIP EXPERIENCE

- **Quiz Coordinator**, The Gas Challenge, 2025
- **Lead Tutor**, Academic Excellence Study Circle
- **Financial Secretary**, ROFOSA - UMaT (January 2023 - January 2024)

HONORS / AWARDS

SPE Ghana Scholarship, Society of Petroleum Engineers – Ghana Section (2025)

- Selected among six other top students in SPE Ghana to receive scholarship awards for academic excellence and active participation in SPE.

GCM – TEF Scholarship, Ghana Chamber of Mines (2024)

- Awarded for excellent academic performance in a pool of over 1 000 other applicants.

Finalist and 1st Runner-Up, The Gas Challenge, 2024.

- Competed against 36 top students from 12 universities and was 1st Runner-Up even as a second-year student.

PROFESSIONAL AFFILIATIONS

Society of Petroleum Engineers (SPE) – (2023 to present)

VOLUNTARY / EXTRA-CURRICULAR ACTIVITY

Academic Excellence Study Circle (2022 – 2026)

- Organised academic study sessions supporting **over 25** petroleum engineering students, improving collaborative learning and exam performance through tutoring and discussions.

SPE Energy4Me Ambassador (2025)

- Volunteered at the SPE UMaT Chapter to campaign and inspire **over 100** Basic School students at Tarkwa as well as enlightening them on the basic operations in the Oil and Gas industry.

The Gas Challenge (2024)

- Competed against 36 top students from 12 universities and finished 1st Runner-Up in The Gas Challenge 2024.

SKILLS AND ABILITIES

- Software & Programming: Python, Excel, CMG Reservoir simulation software
- Data & Analytics: Machine Learning, Predictive Analytics, Data Visualisation and Interpretation
- Other skills: Technical Report Writing and Presentation, Teamwork and analytical Problem-Solving
